

The In-Ear Sound Choice

With their hi-fi stereo sound and true roadworthy durability, VXi BlueParrott® Wired Buds are the first in-ear headphones good enough to be called BlueParrott. Wired Buds feature an inline control fob, so you can easily start/stop music, adjust volume*, and even answer/end calls—thanks to the control fob with inline microphone. Multiple ear tips and sport clips provide comfort and stability, while the braided cord and aluminum housing mean your Wired Buds can handle the rigors of real life.

Benefits

- Enjoy detailed stereo hi-fi sound.
- Wear for hours in complete comfort.
- Easily access inline controls.
- Stream music or GPS directions.**
- Work seamlessly with your iPhone, iPad or iPod.
- Get the most out of your Wired Buds with the free BlueParrott App (Android/iOS).

*Inline volume control will work with iOS devices only.

**Drive BlueParrott safe. Never operate a vehicle with both ears covered.
